WHAT IS THIS PRODUCT?

Type:
 Société d'Investissement à Capital Variable (SICAV).

Term:
 The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives:
 The sub-fund aims for long-term growth of its assets through investment in high yielding bonds issued by sovereign, quasi-sovereign and corporate issuers located throughout the world (Global High Yield Bonds).
 - The sub-fund employs thorough credit underwriting and exclusions based on certain Environmental, Social and Governance characteristics to achieve the aforementioned objective. Specifically the strategy will seek to minimise investment in certain carbon intensive sectors and controversial businesses. The sub-fund may invest up to 100% of its net assets in Global High Yield Bonds. When, in the opinion of the sub-portfolio Manager, the credit rating of an instrument or the credit profile of an issuer deteriorates after initial purchase, the sub-portfolio Manager will, at its full discretion, decide whether to hold or sell such instrument after considering various factors, including but not limited to the interest of the sub-fund's shareholders, the risk of default, time to maturity, liquidity and market price, and re-invest the sale proceeds in other fixed income instruments within the scope of the investment strategy.
 - Individual securities level: The maximum weight of a single issuer is 5%.
 - Individual Industry level: The maximum weight of a single industry is 15%.
 - The sub-fund may invest up to 10% of its net assets in units or shares of UCITS and/or other eligible UCIs.
 - The remaining part of the Sub-Fund's portfolio if any will be invested in in money market instruments for investment purposes.
 - The Sub-Fund can have up to 20% of its net assets in ancillary liquid assets (i.e. cash deposits at sight). Under exceptionally unfavourable market conditions and if justified in the interest of the investors, the Sub-Fund may temporally invest up to 100% of its net assets in ancillary liquid assets and other liquid instruments.
 - Currency positions may be established to hedge foreign currency exposure in relation to the relevant share classes to minimise any fluctuations between the base currency and the currency of the appropriate sub-fund.
 You may redeem your investment upon demand. This fund deals daily.
 The sub-fund is actively managed. It uses the ICE BofA Global High Yield Constrained Index as a reference benchmark for performance comparison. The investments of the sub-fund may deviate significantly from the components of and their respective weightings in the benchmark.
 Income shall remain in the sub-fund and shall increase the value of the shares.

Intended retail Investor:
 Recommendation: The sub-fund is suitable for investors seeking higher income via exposure to global high-yield corporate bonds, accepting credit risk and medium/long-term horizon.
 Depositary : Brown Brothers Harriman (Luxembourg) S.C.A..
 The prospectus and current reports, the current share prices and further information about the sub-fund or further share classes of the sub-fund can be found free of charge in English language on webpage www.smd-am.co.uk.
 The share price is published daily and is available, along with any indicative net asset value, online at www.smd-am.co.uk.
 The fund is a sub-fund of the Company which is an umbrella fund with segregated liability between sub-funds. This means that the assets and liabilities of each sub-fund are segregated by law.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the product for a minimum of 5 Years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.
 The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.
 We have classified this product as class 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
 Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk.
 This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

WHAT HAPPENS IF VISTRA FUND MANAGEMENT S.A. IS UNABLE TO PAYOUT?

In the event of the insolvency of the manager and/or management company, the Fund's assets in the safekeeping of the Depositary will be unaffected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss.

The Depositary is required to segregate its own assets from Fund's assets and will be liable to the Fund and investors for any loss arising from its negligence, fraud or intentional failure to fulfil its obligations (subject to certain limitations).

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

• USD 10 000 is invested

| | If you exit after 1 year | If you exit after 5 years |
|---------------------|--------------------------|---------------------------|
| Total costs | USD 575 | USD 999 |
| Annual cost impact* | 5.7% | 1.8% each year |

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.6% before costs and 1.8% after costs.

Composition of Costs

| | | |
|----------------------------------|---|--------------------------|
| One-off costs upon entry or exit | | If you exit after 1 year |
| Entry costs | Up to 5.00% of the amount you pay in when entering this investment. <i>Entry costs of 5% shown in this illustration are currently waived.</i> | Up to USD 500 |

| | | |
|--|---|--------|
| Exit costs | We do not charge an exit fee for this product, but the person selling you the product may do so. | USD 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.70% of the value of your investment per year. This is an estimate based on actual costs over the last year. | USD 70 |
| Transaction costs | 0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | USD 5 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | USD 0 |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended minimum holding period: 5 Years

The recommended minimum holding period is 5 years, as the Sub-Fund is designed for long-term investors. You may request redemption of your Shares on any Dealing Day at the prevailing Net Asset Value. If you cash in before the recommended holding period, you may be exposed to a higher risk of loss and reduced performance. No entry or exit fees are charged by the Sub-Fund, but swing pricing or anti-dilution adjustments may apply, which can reduce the amount you receive. Please refer to the section on costs for details.
