

Japan Equity Mid Small Cap Value

Investment Objective

Active strategy that aims to deliver an attractive return versus the benchmark through investing in undervalued stocks by narrowing down all listed companies based on financial criteria (PBR-ROE approach), and utilising AI* to identify stocks in which we can expect medium-term changes. Also aims to improve corporate value through making proactive recommendations to the portfolio companies and engaging on business issues.

*Use of Artificial Intelligence (AI): see general disclaimer page.

Performance %

Calendar year strategy performance vs. benchmark

Source: SMDAM and Bloomberg, data as at 31 July 2025. The chart above shows calendar year performance in JPY against the benchmark Russell/Nomura Mid-Small Cap TR Index which is shown in JPY and is gross of fees.

Composite Performance

(Gross of fees)	Strategy %	Benchmark %
1m	4.64	3.53
3m	14.06	10.56
12m	17.73	11.16
3yr p.a.	23.29	17.03
5yr p.a.	22.77	16.05
Since Inception p.a. (01/05/16)	15.83	10.37

Source: SMDAM, as at 31 July 2025.

Risk warning: Past performance is not a reliable indicator of future performance and may not be repeated. An investment's value and the income deriving from it may fall, as well as rise, due to market fluctuations. Investors may not get back the amount originally invested. Any minor discrepancies are due to rounding. Performance is shown in JPY, the return may increase or decrease as a result of currency fluctuations and is gross of fees (after trading expenses).

Disclaimers

This document is issued by Sumitomo Mitsui DS Asset Management (UK) Limited. Registered in England and Wales. Registered office 100 Liverpool Street, London, EC2M 2AT; registered number 1660184. Authorised and regulated by the Financial Conduct Authority.

This document is distributed to and is directed only at: (a) persons who have professional experience in matters relating to investments and falling within the definition of “investment professional” in article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended) (the “Order”); (b) high-net-worth entities falling within article 49(2) of the Order; (c) certified sophisticated investors falling with article 50 of the Order; and (d) other persons to whom it may otherwise lawfully be communicated.

The information set out in this document is for information purposes only and is not intended to be investment advice, tax, financial or any other type of advice and is merely a brief summary of the main aspects of the strategy. The information is correct to the best of our knowledge at the date of issue. This document may not be copied, redistributed or reproduced in whole or in part without the prior written approval of Sumitomo Mitsui DS Asset Management (UK) Limited.

Risk warning: Past performance is not a reliable indicator of future performance and may not be repeated. An investment's value and the income deriving from it may fall, as well as rise, due to market fluctuations. Investors may not get back the amount originally invested. Performance is shown in Japanese Yen; the return may increase or decrease as a result of currency fluctuations. The strategy's performance shows gross of fees (after trading expenses and before the deduction of investment management fees) and total net returns (dividends, net of tax, have been reinvested in the portfolio). WM/Reuters 4pm exchange rates have been sourced from RIMES. Close-of-day stock mid-prices have been sourced from Bloomberg. Cash is included on a settlement-dated basis. The information contained in this document is to be used by the professional client that this document is issued to only.

Risk warning: This strategy is not available in the U.S., EEA or to EEA domiciled persons.

Risk warning: On 1 January 2021 the UK left the EU transitional arrangements and no longer benefits from passporting rights into EEA countries.

Use of Artificial intelligence (AI): AI is used in the strategy, but only to support universe research. It complements the analysis after learning the characteristics of the managers' stock research. AI was originally developed jointly by the National Institute of Informatics and Sumitomo Mitsui DS Asset Management Company, Limited and is currently operated as an in-house system. The score calculated by AI is only used as a reference in the very early stages of the investment when selecting the universe. AI is not involved in any of the subsequent stock selection processes. AI is only used for Japanese listed companies. AI is a proprietary tool and no fees or other compensation are charged for its use.

This is a marketing communication. Please refer to the client's legal agreement before making any final investment decisions.
