SMD-AM Funds - DSBI Japan Equity Small Cap Absolute Value - Share Class P JPY a sub-fund of SMD-AM Funds

ISIN-Code: LU1550200676

The fund is managed by Vistra Fund Management S.A.

Objectives and investment policy

The sub-fund aims to maximise total return over the medium-to-long term by adopting distinctive value-biased active investment style by looking to investment for opportunities in undervalued, small-and-micro-cap companies with sustainable growth potential.

- The sub-fund invests at least 75% of its net assets in Japanese small-and-micro-cap equity securities. The remaining part of the portfolio can be invested in money market instruments for investment purposes.

- Individual securities level: No set limit but the weight will be up to circa 5%. There is no minimum weighting and shorting is not allowed.

- Sector level: No set limit.

- The sub-fund can hold up to 20% of its net assets in ancillary liquid assets (i.e. cash deposits at sight). However, the sub-fund is typically managed on a fully invested basis with circa 3% of the net asset of the sub-fund invested held in cash deposit at sight.

- Under exceptionally unfavourable market conditions and, if justified in the interest of the investors, the sub-fund may temporarily hold up to 100% of its net assets in cash and deposits at sight (such as cash held in current accounts).

- Currency positions may be established to hedge foreign currency exposure in relation to the relevant share classes to minimise any fluctuations between the base currency and the currency of the appropriate sub-fund.

Income shall remain in the sub-fund and shall increase the value of the shares.

You may redeem your investment upon demand. This fund deals weekly on Tuesdays.

The sub-fund is actively managed. It uses the Russell Nomura Small Cap Index as a reference benchmark for performance comparison. The investments of the sub-fund may deviate significantly from the components of and their respective weightings in the benchmark.

Recommendation: The sub-fund is suitable for investors who see the sub-fund as a suitable means to participate in the capital market performance. The sub-fund is therefore suitable for investors who can afford to invest their capital over the long term; i.e. a multiple year time horizon.

Risk and reward profile

- This indicator relies on historic data and cannot be used for a prediction of future developments. The categorisation of the sub-fund may change in the future and is not a guarantee. Even a fund in category 1 is not an entirely risk-free investment.
- The sub-fund has been placed in category 5 because its value fluctuates strongly and therefore the chance of profit but also the risk of loss can be high.
- It may be that due to the calculation model not all risks are accounted for when placing the sub-fund in a risk category. An extensive description of the risks is included in the section "Risks of Investment" in the prospectus. The following risks have no direct bearing on the categorisation but may nevertheless be of relevance to the sub-fund:
 - Concentration risk: A risk can arise from a concentration of investment in certain assets or markets. Then the Company is particularly heavily dependent on the performance of these assets or markets.
 - Country risk: To the extent that the Company focuses on certain countries within the context of its investment, this also reduces the spread of risks. As a result of this, the Company is dependent to a particular extent on the development of single or related countries or on the companies registered or active in these countries.
 - Currency risks: When investing in foreign currencies and in transactions in foreign currencies there are chances and risks of changes in exchange rates. It must also be borne in mind that investments in foreign currencies are subject to a so-called transfer risk.
 - Company-specific risks: Company-specific risks describe the risks, which have directly and indirectly to do with the company itself. This means in particular the situation of the company in the market environment, management decisions and similar circumstances that directly concern the company. Among the general conditions are especially the inflation rate, the level of base rates, fiscal and legal conditions and the general market psychology. It can be observed over and over again that shares or whole stock markets are subject to considerable price fluctuations and evaluation fluctuations without the general conditions changing.
 - Small capitalization companies risk: Smaller or newer companies are subject to greater risk and reward potential. Investments may be volatile or difficult to buy or sell.

Charges

One-off charges taken before or after you invest	
Entry charge*	Up to 5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the sub-fund over the year:	
Ongoing charges	1.00%
Charges taken from the sub-fund under certain specific conditions:	
Performance fee	The share class is not subject to any performance fee.

*Entry costs of 5% shown in this illustration are currently waived.

The ongoing management and custody of the sub-fund's assets as well as the distribution of the shares are financed through the fees and other costs. Arising costs decrease the chances of return for the investor.

In case of a conversion of the shares from one share class of the sub-fund into another share class of this or another sub-fund no additional charge will be levied.

The ongoing charge mentioned here was incurred in the preceding financial year of the sub-fund which ended in 31 March 2026. The ongoing charge may vary from year to year. The ongoing charges figure does not include Performance fees and charges for the purchase and sale of assets (Portfolio transaction costs).

The latest TER information is available upon request.

Further information about costs can be found in the Section "Administrative and other Costs" in the prospectus.

Past performance

- Past performance is not a guarantee for the future.
- In this calculation, all costs and fees with the exception of the entry charge have been deducted.
- The sub-fund was set up in 2017 and this unit class was launched on 28/02/2017.
