## WHAT IS THE PRODUCT?

## Type:

Société d'Investissement à Capital Variable [SICAV]

## Term:

This product is not subject to any fixed term.

## Objectives:

The Sub-Fund aims to maximise total return over the medium-to-long term by using a fundamental approach and investing in undervalued stocks of small and mid-cap companies in which we can expect medium term growth by narrowing down all listed companies based on financial criteria (price-to-book value ratio – return on equity (PBR-ROE) approach) while utilising artificial intelligence to identify stocks. Artificial intelligence is only used as a tool for identifying stocks and is not involved in investment decision-making.

- The Sub-Fund invests at least 75% of its total assets in Japanese equity securities of small and mid-cap companies. The remaining part of the portfolio will be invested in cash or cash related instruments.

- Individual securities level: The maximum weight of a single issue is 10%. There is no minimum weighting and shorting is not allowed.

- Sector level: No set limit.

- The Sub-Fund can hold up to 20% of its net assets in ancillary liquid assets

- Currency positions may be established to hedge foreign currency exposure in relation to the relevant share classes to minimise any fluctuations between the base currency and the currency of the appropriate sub-fund.

The Sub-Fund is actively managed. It uses the Russell Nomura Mid-Small Cap Index as a reference benchmark for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark. Income shall remain in the sub-fund and shall increase the value of the shares. You may redeem your investment upon demand. This fund deals daily.

## Intended Retail Investor:

Recommendation: The sub-fund is suitable for investors who see the sub-fund as a suitable means to participate in the capital market performance. The sub-fund is therefore suitable for investors who can afford to invest their capital over the long term i.e. a multiple year time horizon.

Depository : Brown Brothers Harriman (Luxembourg) S.C.A..

The prospectus and current reports, the current share prices and further information about the sub-fund or further share classes of the sub-fund can be found free of charge in English language on webpage [www.smd-am.co.uk](http://www.smd-am.co.uk).

The share price is published daily and is available, along with any indicative net asset value, online at [www.smd-am.co.uk](http://www.smd-am.co.uk).

The fund is a sub-fund of the Company which is an umbrella fund with segregated liability between sub-funds. This means that the assets and liabilities of each sub-fund are segregated by law.

**The risk indicator assumes you keep the product for a minimum of 5 Years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

**We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.**

Be aware of currency risk. The underlying funds may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 Years Investment: 10 000 JPY			
Scenarios Minimum There is no minimum guaranteed return [if you exit before 5]. You could lose some or all of your investment.		1 Year	5 Years (recommended holding period)

	Average return each year	- 79.9 %	- 27.48 %
Unfavourable scenario	What you might get back after costs	8 030 JPY	10 070 JPY
	Average return each year	- 19.69%	0.13%
Moderate scenario	What you might get back after costs	10 840 JPY	13 090 JPY
	Average return each year	8.37%	5.53%
Favourable scenario	What you might get back after costs	13 500 JPY	16 620 JPY
	Average return each year	35.04%	10.69%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 08/2015 and 07/2020. Moderate: This type of scenario occurred for an investment between 02/2016 and 01/2021. Favourable: This type of scenario occurred for an investment between 03/2020 and 02/2025.

## WHAT HAPPENS IF VISTRA FUND MANAGEMENT S.A. IS UNABLE TO PAYOUT?

In the event of the insolvency of the manager and/or management company, the Fund's assets in the safekeeping of the Depositary will be unaffected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss.

The Depositary is required to segregate its own assets from Fund's assets and will be liable to the Fund and investors for any loss arising from its negligence, fraud or intentional failure to fulfil its obligations (subject to certain limitations).

## WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment: 10 000 JPY	If you exit after 1 Year	If you exit after 5 Years
Total Costs	55 JPY	367 JPY
Annual Cost Impact*	0.55 %	0.59 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.11% before costs and 5.53% after costs.

### Composition of Costs
